

Project 08: BI Dashboard Report

Objective

Design an interactive Business Intelligence dashboard using the Sample Superstore dataset to visualize KPIs and business performance.

Dashboard Visuals

- Sales by Region (Bar Chart)
- Profit by Region (Bar Chart)
- Sales by Category (Bar Chart)
- Sales by Segment (Donut Chart)

Key Insights

- West region generated the highest sales and profit.
- East region ranked second in overall performance.
- Technology category achieved the highest sales.
- Consumer segment contributed the largest share of total sales.
- Central and South regions present opportunities for business growth.

Business Recommendations

- Increase marketing investment in West and East.
- Improve sales strategy in Central and South.
- Focus inventory on Technology products.
- Develop targeted campaigns for Corporate and Home Office customers.
